PROJECT OVERVIEW

Harris United delivered the QSR component of Love's new Kingman travel stop on I-40 — a side-by-side Subway and Buffalo Wild Wings GO sharing a single bright, open dining room. Both concepts were built to their national brand standards while working as one cohesive guest space inside a 24-hour operation serving travelers and professional drivers.

- Two brand-standard service counters with dedicated order and pick-up zones
- Brand signage, illuminated soffits and digital menu boards for both concepts
- Shared dining room with window-wall seating, beverage station and durable finishes
- Dedicated QSR exterior entrance with canopy and dual-brand building signage
